## Bringing Back Artistry and Craftsmanship

Woodstock Reveries is a unique boutique located in the heart of Woodstock, NY and online at [woodstockreveries.com](http://woodstockreveries.com). Our mission is to sell beautiful items with artistic, spiritual and healing virtues. We specialize in hand-crafted, environmentally friendly products, usually created by local or nearby artists and craftspeople. We are playing our part in bringing back beauty, uniqueness and genuine craftsmanship: nothing at Woodstock Reveries is mass-produced, nothing can be found at big chain department stores.

Woodstock Reveries is the exclusive New York State shop and only online resource for the exquisite Janet McKinstry Designs. Each of her beautiful bags, shawls, scarves, hats, clothing, potholders, tapestries, etc., is a unique work of art. Janet retrieves tapestries, upholstery fabrics, and textile pieces from around the world, and handcrafts them into the incredible one-of-a-kind pieces you will only find here.

Woodstock Reveries also carries raw and polished crystals, healing crystals and crystal kits, handmade and vintage jewelry, spiritual books and music, essential oils, handmade Buddha mugs, handmade yoga mat bags, and many other spiritual and healing items and gifts.

The next time you are in the charming arts and crafts town of Woodstock, NY, stop in and visit us. We are located at 9 Rock City Road right across the street from the municipal parking lot and Chamber of Commerce. Or shop online at [woodstockreveries.com](http://woodstockreveries.com)

## Featured Products

It's April and while we may have some showers, we know it's the life force that will have the flowers blooming so we are perfectly fine with a few sprinkles. After the long, hard winter, we are more than ready for the warm weather and burst of colors that come from the grass, leaves, flowers and trees as they experience their rebirth. At Woodstock Reveries, we have the perfect items to help color and beauty bloom into your days and life.

As nature reawakens, we should also try to reawaken our own minds and bodies, seeking balance and open, flowing energy. Our **Chakra Healing Crystal Kit** can help. It includes 7 healing crystals, each of which represents one of the Chakras – Root, Sacral, Solar Plexus, Heart, Throat, Third Eye, and Crown. The crystals can be used individually or in groups to help clear and balance the chakras.

All crystal healing kits are cleared and can be programmed with specific intent upon request. All crystal healing kits come in a velvet pouch.

Speaking of reawakening, there is no better time than spring to bring new energies to our creativity and spirit. Picture Jasper is a nurturing and protective stone which brings comfort and alleviates fear. It stimulates not only the Base Chakra in providing physical and spiritual energy for the body, but also activates the Third Eye Chakra enhancing visualization. It instills a sense of proportion and harmony, enlivening one's creativity and initiative, and is a marvelous talisman for bringing hidden emotions to the surface for healing. Believed to be magical because a landscape naturally appears in this stone, each is one of a kind. This beautiful and unique **Picture Jasper and Fossil Handmade Pendant** features a large piece of picture jasper and a fossil set in sterling silver.
