Bringing Back Artistry and Craftsmanship

Woodstock Reveries is a unique boutique located in the heart of Woodstock, NY and online at woodstockreveries.com. Our mission is to sell beautiful items with artistic, spiritual and healing virtues. We specialize in hand-crafted, environmentally friendly products, usually created by local or nearby artists and craftspeople. We are playing our part in bringing back beauty, uniqueness and genuine craftsmanship: Nothing at Woodstock Reveries is mass-produced, nothing can be found at big chain department stores.

Woodstock Reveries is the exclusive New York State shop and online resource for the exquisite Janet McKinstry Designs. Each of her beautiful Bags, Shawls, Hats, Capes, Quilts, etc., is a unique work of art. Janet retrieves tapestries, upholstery fabrics, and textile pieces from around the world, and handcrafts them into the incredible one-of-a-kind pieces you will only find here.

Woodstock Reveries also carries raw and polished Crystals, Rocks, Minerals and Fossils, Healing Crystals and Crystal Kits, handmade and vintage Jewelry, spiritual Books, Essential Oils, hand-carved Hearts and Peace Signs, handmade Buddha Mugs, handmade yoga mat bags, and many other spiritual and healing items and gifts.

The next time you are in the charming arts and crafts town of Woodstock, NY, stop in and visit us. We are located at 9 Rock City Road right across the street from the municipal parking lot and Chamber of Commerce. Or shop online at woodstockreveries.com

Featured Products

Valentine's Day is coming and at Woodstock Reveries, we have the perfect gifts that show how much you care.

Nothing says love as much as beautiful jewelry. Each piece of jewelry at Woodstock Reveries is one of a kind – just like the person you are buying it for.

Is your love new? Give her these [Morganite Stud Earrings](#) or this [Morganite Pendant Necklace](#) (or both), all set in sterling silver.

Morganite is a gentle stone. It is a Heart Chakra stone that is gentler than Rose Quartz, allowing for a gentle release of emotions.

Put the spark back into your love with this beautiful **5-Stone Garnet Ring** set in sterling silver. Garnet is a stone of regeneration, revitalization and passion. It stimulates positive thoughts and helps manifest dreams into reality. A perfect way to say "I still love you."

Maybe your Valentine prefers his or her rocks in a rougher, more natural form. We have a large collection of rough crystals, rocks, minerals and fossils.

Corundum which is also type of **ruby** is a beautiful stone. It is believed by the ancients to have been blessed by the gods as a powerful protective stone. Ruby is an aphrodisiac and encourages closeness and commitment. It is a stone of passion. Need we say more?

If your Valentine loves fashion, she will adore our bags, purses and totes from the Janet McKinstry Collection. Each item is handmade from salvaged materials and is one of a kind. Why give her a designer bag everyone will have when you can give her a designer bag everyone will envy?

Like "**Penny**." Perfect for a night out! This adorable purse has a purple and gold diamond patterned with purple floral front flap. Elastic loop and vintage button on Asian coin closure.

These are just a few of the many beautiful, one-of-a-kind gifts at Woodstock Reveries. There's certain to be something perfect for your Valentine.

The Artist's Corner

At Woodstock Reveries, we specialize in unique, one-of-a-kind, handmade and handcrafted items.

Meet one of the artists:
Janet McKinstry.

All of our bags, clothing, hats, shawls, scarves and hats are one-of-a-kind works of art designed and crafted by **Janet McKinstry Designs**. Janet McKinstry blends fine salvaged materials of unique upholstery and findings to create her one-of-a-kind bags, quilts, scarves, shawls, hats and marionettes.

She is also a UCC Pastor in the Berkshires and has written and illustrated a children's book, "Rosie and Friends: Unleashed in Berkshire County."

"I begin with a piece of fabric that inspires me and then I build from there. The process is really close to playing like a child where we once got lost in a world of creativity. My process is constantly evolving. The lines and textures in fabric are like paints on a canvas to me. I blend the lines, colors, and textures as I would in painting. The trick is to take risks and listen to the materials! I also love seeking out unique findings for closures and finishing touches: vintage buttons, carved cabochons, old world coins, and my own works in clay and painting."

– Janet McKinstry
