## Bringing Back Artistry and Craftsmanship

Woodstock Reveries is a unique boutique located in the heart of Woodstock, NY and online at [woodstockreveries.com](http://woodstockreveries.com). Our mission is to sell beautiful items with artistic, spiritual and healing virtues. We specialize in hand-crafted, environmentally friendly products, usually created by local or nearby artists and craftspeople. We are playing our part in bringing back beauty, uniqueness and genuine craftsmanship: Nothing at Woodstock Reveries is mass-produced, nothing can be found at big chain department stores.

Woodstock Reveries is the exclusive New York State shop and only online resource for the exquisite Janet McKinstry Designs. Each of her beautiful Bags, Shawls, Hats, Capes, Quilts, etc., is a unique work of art. Janet retrieves tapestries, upholstery fabrics, and textile pieces from around the world, and handcrafts them into the incredible one-of-a-kind pieces you will only find here.

Woodstock Reveries also carries raw and polished Crystals, Rocks, Minerals and Fossils, Healing Crystals and Crystal Kits, handmade and vintage Jewelry, spiritual Books, Essential Oils, hand-carved Hearts and Peace Signs, handmade Buddha Mugs, handmade yoga mat bags, and many other spiritual and healing items and gifts.

We can probably all agree that we have had enough snow and cold weather. Spring is right around the corner and it couldn't be more welcome. At Woodstock Reveries, we have the perfect items that can bring the sunshine into your days even before it's officially Springtime.

When we think of spring, we think of the color green which we see in 4-leaf clovers and new grass peeking out of the earth. Maybe you would also like to add some "green" to your pockets.

Our **Good Luck & Good Fortune Crystal Healing Kit** can help. It includes 2 healing crystals that will help you focus to create a beautiful life, joy, positivity, hope, happiness, and prosperity.

They will enhance calm, tranquility, vitality, good luck, and peace and can help heal a broken heart. All crystal healing kits are cleared and can be programmed with specific intent upon request. All crystal healing kits come in a velvet pouch.

Spring is a time for new beginnings. Blue apatite can help one release old feelings and move on. Blue apatite is a throat Chakra stone and is used by artists. It stimulates thoughts and ideas. It increases intellect, focus, learning and creativity.

Blue apatite brings harmony and inner peace. It is said to help allergies, arthritis, bones, eyesight and weight loss. This beautiful **Blue Apatite Ring** has a blue apatite stone set in a sterling silver ring. The stone is bright and happy as a clear spring sky.

Spring is also a good time to break old habits and live a healthier life. Amethyst can help with that. It helps us to stop unhealthy activities and overindulgence. Amethyst is a stone of peace and tranquility. It enhances intelligence and business savvy and it can help insomnia. This gorgeous **Amethyst Pendant** has a 2" cabochon set in sterling silver. The color is as beautiful as spring flowers.

Spring means new fashion lines and our bags, purses and totes are each handmade from salvaged materials and one of a kind. Why buy a designer bag everyone will have when you can buy a unique designer bag everyone will envy?

Like "**Rosie**." Rosie is pretty in pink and is the perfect tote bag for spring. This tote bag is as beautiful as it is functional. Very roomy inside with 2 large pockets outside and 2 more small pockets inside. Bright fuchsia color with multi-colored patterned accents. Two shoulder straps. Elastic loop and vintage button on oriental coin closure. Only one available so order before it's gone.

"**Carly**" is so cute and perfect for those days when you only want to carry what you absolutely need. This bag is so adorable! It's a small purse with white, green and gold floral and vine patterns. Elastic loop and vintage flower button closure. Pockets on front and back and 2 pockets inside. This bag definitely says spring.

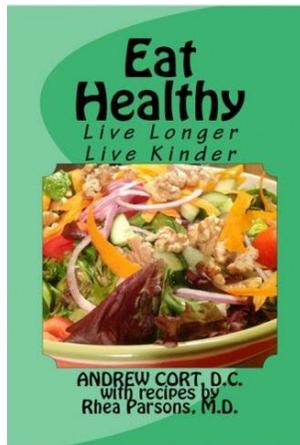

Everyone will love "**Jesse**," a funky burlap bag made from upcycled coffee bags. It's roomy enough to use for school, work or as a picnic bag. Long strap you can wear over the shoulder or cross-body. Pocket on the back plus 2 more pockets inside. Elastic loop and vintage button on Asian coin closure. Comes with blue print and pink striped border.

As the weather gets warmer, we start thinking about taking better care of ourselves and getting back into shape. After all, we won't have those big bulky sweaters and coats to hide behind much longer. At Woodstock Reveries, we can help by making eating right and exercising more fun and fashionable.

Know any yoga enthusiasts? Are you into yoga? We have the most unique **Yoga Mat Bags**. They are handmade, upcycled from rice bags. Each bag has a zippered pocket inside for your keys or phone and a large gathered pocket on the bag for a water bottle or towel. The colorful designs on the front and back of each bag features Lakshmi, the Goddess of Beauty and Prosperity. It's guaranteed you'll be the only person in your yoga class with such a one of a kind yoga mat bag. This bag is so beautiful, you'll be extra motivated to go exercise just so you can carry it.

As spring approaches we also think about eating better. Rather than starting a new diet, try starting a new way of life. "**Eat Healthy - Live Longer, Live Kinder**" by Andrew Cort, D.C. can help you navigate a healthier, kinder way of eating.

Eating well is not a dreary, unfair punishment. Wholesome, nutritious food is delicious and enjoyable. Eating well is living well, with love and respect for ourselves, for each other, and for the planet. This book contains all the information you need, including a sampling of healthy appetizing recipes. While we are looking for better treatments after we get sick, and finding ways to cut medical costs and get health insurance coverage for everyone without destroying our economy, it seems lost on many people that the vast majority of our healthcare problems could be

avoided, lessened, or healed, by simply cutting out all the unhealthy foods that we eat, and switching to a healthy, natural diet. This would not just be better for our bodies. It would also be better for our hearts and minds, and all of life.

We also sell **Gift Cards** in many different value amounts. If you need to buy a gift for someone but aren't sure what to choose, get your lucky someone a gift card and let them choose exactly what they want. It's the perfect thoughtful gift!
